

Assignment - 3 (Encapsulation)

que List atleast 10 real life examples for Encapsulation.

Class diagram : Bank Account

①

SmartPhone

- brand : string , model : string ,
battery level : int , storage
capacity : int

- Power on (); Power off ();
make call (); open app ();
charge battery ();

	class Name	properties (data/members)	methods (Functions)
2)	car	make : string, model : string, Fuel level : double, current Speed : int, engine : boolean	start engine () ; accelerate () , brake() steer () , refuel () .
3)	Washing machine	brand : String, water level : int, cycle type : string, timer : int	start cycle () , stop () ; set timer () , drain water () , spin ()
4)	microwave oven	brand : string, power level : int, time remaining : int, door locked : boolean	set time () , set power start heating () , cancel () .
5)	ATM Machine	machine ID : int, cash available : double, bank name : string, status : string	Authenticate user () , withdraw cash () ; check balance ()
6)	Television	brand : string, is on : boolean current channel : int volume level : int	toggle power () , change channel () , adjust volume () ,
7)	Patient (medical record system)	Patient ID : int, blood group : string medical history : text , current medication : list , allergic reaction data : string	update vitals () , view history () , diagnose () , authorize access ()

8) Social media Profile
 user name: string,
 passwordHash: string,
 privacy setting: object,
 followers count: int
 updateBio(),
 change password(),
 uploadPost(),
 follow user(),

9) Car dashboard
 current speed: double,
 fuel level: double,
 engine RPM: int,
 coolant Temp: double
 accelerate(),
 brake(), change
 gear(), toggle
 light(),

10) digital camera
 resolution: int-
 iso setting: int,
 aperture value: double,
 available memory: long
 captureImage(),
 zoomIn(),
 zoomOut(),
 deletePhoto(),
